

“About the Japanese people I met at the DICE event”

“About the organizer of DICE in Japan”

The orgnaisers have been so fantastic each time! They are organised, kind, gracious, full of creative inspiration and make the whole process go smoothly. I love working with them, being in their company and discovering more about them beyond the drama workshops.

“About the Japanese teachers I taught together”

Teaching Drama workshops with Nobuko (drama teacher) and Kaori (music teacher) has been so special every time. I love when we fuse English Drama with Japanese Drama and find that Drama translates across the languages through our bodies, our faces and our smiles!

“About Japanese students”

The Japanese students I've worked with have been such a pleasure! It's amazing to see how quickly they open up throughout the workshop and where they start off shy, they often bloom and shine with confidence by the end of the workshops! I love working with Japanese students, they are Kwai!
